PROFESSIONAL SUMMARY

I am a Cal State Long Beach journalism student with college media experience in writing, editing, photography and videography. In my three semesters with the Daily 49er I've written over 100 articles and worked as a section editor/page designer for a year. When paired with my other work history in restaurants and coaching I've learned I am a strong leader with good relationship-building skills, self-motivated to do the job well and effectively boost team morale.
